

**21st International Meeting on  
Probabilistic, Combinatorial and Asymptotic  
Methods for the Analysis of Algorithms**

## IMPORTANT DATES

**February 28, 2010** Deadline for Submission of Extended Abstracts  
**April 30, 2010** Notification of Authors  
**May 31, 2010** Final Version of Accepted Papers

## REGISTRATION

Registration to the  
conference and the Mini-Summerschool  
will be through the conference website:  
**[www.aofa10.at](http://www.aofa10.at)**

## PROGRAM COMMITTEE

B. CHAUVIN, Versailles (France)  
J. CICHON, Wroclaw (Poland)  
M. DRMOTA, Vienna (Austria, Chair)  
P. FLAJOLET, INRIA, Rocquencourt (France)  
D. GARDY, Versailles (France)  
M. KLAZAR, Prague (Czech Republic)  
J.-F. LEGALL, Paris (France)  
C. MARTINEZ, Barcelona (Spain)  
R. NEININGER, Frankfurt (Germany)  
M. NOY, Barcelona (Spain)  
A. PANHOLZER, Vienna (Austria)  
H. PRODINGER, Stellenbosch (South Africa)  
U. ROESLER, Kiel (Germany)  
R. SEDGEWICK, Princeton (USA)  
W. SZPANKOWSKI, Purdue (USA)  
P. WINKLER, Dartmouth (USA)

## INVITED SPEAKERS

**Noga ALON** (Tel Aviv University)  
**Yuliy BARYSHNIKOV** (Bell Laboratories)  
**Daniel PANARIO** (Carleton University)  
**Oliver RIORDAN** (University of Oxford)  
**Peter WINKLER** (Dartmouth)

## MINI-SUMMERSCHOOL

**June 25 - 26, 2010**  
Tutorial Talks by

**Nicolas BROUTIN** (INRIA Rocquencourt)  
**Christian KRATTENTHALER** (Universität Wien)  
**Wojciech SZPANKOWSKI** (Purdue University)  
**N.N.**

## CONTACT

**Vienna University of Technology**  
  
**Institute of  
Discrete Mathematics and Geometry**  
Wiedner Hauptstrasse 8-10  
A-1040 Wien  
tel.: +43 1 58801 10404  
fax.: +43 1 58801 11399  
email: [aofa10@dmg.tuwien.ac.at](mailto:aofa10@dmg.tuwien.ac.at)  
web site: [www.aofa10.at](http://www.aofa10.at)

## SCOPE OF THE CONFERENCE

This conference is the first joint meeting of two previous conference and seminar series on „Mathematics and Computer Science“ and „Analysis of Algorithms“. The common aim of these and the present meeting is to study discrete objects that appear as data structures or algorithms (including graphs, networks etc.) by mathematical methods, in particular by probabilistic, combinatorial and asymptotic methods.
