

# AAA81 — Workshop on General Algebra

## Guidelines for the Conference Proceedings

As in previous AAA conferences, proceedings of AAA81 will be published in the series *Contributions to General Algebra*, volume 20. Every speaker at the conference is invited to submit a full paper containing original research contributions not published elsewhere. Papers based on invited plenary talks may also contain material of survey character.

All submitted manuscripts will be refereed by an international board. Since there is a limit on the size of the volume, contributed papers should not exceed 15 pages. Only electronically submitted manuscripts in L<sup>A</sup>T<sub>E</sub>X<sub>2</sub> $\epsilon$  using the AMS document class `amsart` will be considered. In the preparation of your manuscript please use the `aaa81` package (`aaa81.sty`) and follow the example file (`aaa81ex.tex`) which can be downloaded from

<http://dmg.tuwien.ac.at/aaa81/>

Main rules for papers:

- Do not use margin notes.
- Do not change header or footer.
- Do not change any dimensional parameters such as `\textwidth`, ...
- Do not use any font package to change the main font face of the text.
- Use logical formatting as `\begin{theorem}...\end{theorem}` and not physical formatting as `\par\noindent{\bf Theorem:}...`
- All non-standard packages – if any – must be included in your submission. Please avoid them!
- All pictures – if any – must be included in your submission. We suggest to use one of the following standard packages for the diagrams: `epsfig`, `graphicx`, `pictex`.
